

HEALTH INFORMATION MANAGEMENT AND INTEROPERABILITY: HOW DO WE PREVENT INFORMATION BLOCKING?

9:30 AM - 12 PM

21 MAY

via Zoom

Speaker: YE HOFFMAN

Ye Hoffman is a Director of the Health Evolution Forum, a peer-to-peer collaboration among health care CEOs and thought leaders focused on driving near-term impact at a critical juncture for health care.

Throughout her career, Ye has served on the Institutional Review Board at various academic research and health care delivery organizations, with a focus on data use and electronic health information. She is also a member of the Healthcare Information and Management Systems Society (HIMSS), with an active role in reviewing presentation proposals and mentoring speakers for the annual HIMSS global health conference.
